DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-44, 71-74, drawn to a process of refining marine oil and refined marine oil.

Group II, claim(s) 45-70 and 73-74, drawn to an omega-3 fatty acid concentrate and uses thereof.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Omega-3 fatty acids are conventionally isolated from marine animal oils and the methods recited in Group I do not address any specific method steps that affect the concentration of omega-3 fatty acids which is performed by conventional means. Omega-3 fatty acid concentrates and methods of use are well known.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
